

Peter Webster. Finance Director

A Canadian, my roots in the Bahamas date back to 1989 when I joined NatWest in Nassau before transferring to the Cayman Islands in 1993. Growing up in the Quebec City area, I had diversified work experiences in Calgary, Vancouver and Toronto before heading south. Recently retired as Chief Compliance Officer and Portfolio Manager of a Toronto-based portfolio manager, I also served on a condo board for over 9 years, am a Past-president of the Cayman Islands Society of Financial Analysts and am a Multi-Engine Instrument rated pilot (having learned to fly in the Bahamas!). In 2015 we purchased two unfinished Ipe wood buildings on Spyglass Road which continue to be transformed by local tradespeople into a new cottage. My girlfriend, Lori, is still working in Canada but looks forward to eventually spending more time in Eleuthera.

Serving as the Finance Director over the past 2 years has been a rewarding experience, but much has yet to be done. Our QuickBooks accounting system was switched to an online version so that our staff and board members now have access in the Bahamas and elsewhere. We also are in the process of engaging an accountant as we have not had our finances reviewed for four years. Going forward my emphasis will switch to improving our financial resources in order to fund the Association's needs.
