

Mark Updegraff

Mark and wife Bobbi bought their home in Rainbow in 2006 as a gathering place for their family. What began as a family of five is now 16. Their three children, spouses, and 8 grandchildren spend a couple weeks every year with their parents. Mark and Bobbi look forward to their home, Long Reach, becoming a generational treasure. Because of this, Mark is dedicated to preserving what he loves best about Rainbow Bay—a quiet, well-groomed development where neighbors look out for each other. Mark is probably best known for spearheading the Association's fire wagon construction. He has previously served on the Board and is particularly interested in Association maintenance management as he has owned a trucking company for 46 years.
