

PETER WEBSTER

A Canadian, my roots in the Bahamas date back to 1989 when I joined NatWest in Nassau before transferring to the Cayman Islands in 1993. Currently residing in Quebec City and Toronto, I have retired as Chief Compliance Officer and Portfolio Manager of a Toronto investment firm. I also served on a condo board for 9 years, am a Past-president of the Cayman Islands Society of Financial Analysts and am a Multi-Engine Instrument rated pilot (having learned to fly in the Bahamas!). It is now 10 years since Lori (still working in Toronto) and I purchased two unfinished Ipe wood buildings on Spyglass Road which continue to be transformed by local tradespeople into a new cottage. I had previously served on the board as Finance Director but resigned following the September 14, 2024 vote to adopt the Policies and Procedures Manual dated September 1, 2024 with an implementation date of October 1, 2024. That vote is part of the Association's records and retained as if they were meeting minutes, but those minutes are not disclosed on the website. In my opinion, the Policies and Procedures Manual is incomplete. It has yet to be made available to the membership despite setting out the process for the AGM. I wish to serve again in a financial capacity and to help update Policies and Procedures Manual. The board and numerous members of the association contribute significant time and effort on a volunteer basis and I wish to thank them. I am committed to doing my part to help Rainbow Bay be the best it can be.
